

Looking for a dedicated, expansion-driven Full Time Associate Veterinarian

About our Practice:

We opened our doors 3 years ago and have been fortunate to see our small animal veterinary practice grow rapidly. Brookswood Animal Clinic is a fast paced modern veterinary hospital with a dedicated team of experienced and passionate doctors and staff. What distinguishes us from other veterinary practices in the area is our exceptional customer service and patient care. We believe in creating individual health solutions for each of our client's unique pets.

As we continue to expand both our services and our space in the near future, we will be faced with new and exciting challenges and look forward to finding the right people to help us achieve our goals.

Your Mission:

As a Brookswood Animal Clinic associate veterinarian, you will be expected to provide ethical veterinary medicine of the highest quality according to all applicable laws and codes and incorporate your own unique skills and expertise into the veterinary team.

Required Competencies and Experience:

- Current Oregon DVM license without interruptions/suspensions of licensing within the last 3 years
- Experience managing heavy caseloads in a busy multi-doctor practice is preferred
- Comfortable with dental procedures and a wide variety of soft tissue surgeries
- Must be extremely goal orientated and performance driven
- Must be an excellent communicator with a high affinity for clients and staff

Your Product:

- Appropriately diagnosed and treated patients
- Happy clients who are better educated regarding how to care for their pets
- Clients who accept and pursue recommended treatment plans presented to them for their pet's care
- Clients who continue to use our practice for their pet's care and who actively refer others to us for care.

Some Basic Job Functions:

- Use your education and experience to provide the highest quality preventative care, diagnoses, and treatment for every pet you see
- Perform all common surgeries, including use of all standard medical instruments, equipment, and protocols
- Partner with clients to plan follow up visits, provide home care instructions, and educate to ensure long term health of their pets
- Maintain relevant, comprehensive, and prompt medical records

Compensation and Benefits:

- Base salary of \$68,000 - \$75,000, based on experience and performance record.
- Production rate of 18% - 20%, based on experience and performance record.
- \$1500 per year Continuing Education allowance
- Paid AVMA and COVMA dues
- Paid Professional Liability Insurance
- Paid DEA licensure
- Immediate eligibility for Health Insurance and Retirement Plan
- Paid Holidays after six months and Paid Vacation after one year
